You will learn great tips on taking photos like a professional. This class is designed to be a follow up course to the Digital SLR I (above), but it is also for those who want to learn more in depth techniques.

## Digital SLR Photography Series

This introductory digital SLR photography series can be taken as individual courses for \$39, or together for only \$99!

The photography topics are interrelated and affect one another, so we recommend you take all three (Getting Started with dSLR, Aperture & Shutter Speed, and Perfect Photographs Made Easy) to get a complete understanding of the camera and picture taking.

### Getting Started with your dSLR

In this workshop, you will learn how to set up your camera to optimize the quality of your photographs right off the bat. We will cover the all-important topics of white balance and ISO to be able to shoot under difficult conditions. And of course, learn about all of the little icons on your shooting dial. You'll be able to take pictures right away!

**Supplies:** A \$3 material fee will be collected in class. Please bring your camera and manual to class.

**Instructor:** Terry Matsuoka

**Fee: \$39**

Oceanside Campus, Room 7003

1 Wednesday, 10/14, 6:30–8:30 p.m.

“The instructor was knowledgeable, cordial and informative!”

### Making Shooting Perfect Pictures Easy

To get great pictures, we will cover strategies and basic lighting. These two topics will improve your photographs tenfold, no matter what camera you use. To make getting that perfect shot easy, we will cover these tools in your camera: lens focal length, exposure compensation, bracketing, auto-focus points, and flash. You will be surprised how being so advanced can be so easy!

**Supplies:** A \$3 material fee will be collected in class. Please bring your camera and manual to class.

**Instructor:** Terry Matsuoka

**Fee: \$39**

Oceanside Campus, Room 7003

1 Wednesday, 10/28, 6:30–8:30 p.m.

### From Good to Great Photos: Understanding Aperture & Shutter Speed

Even if you didn't realize it, this is probably why you bought your dSLR in the first place! These concepts can be daunting to understand on your own. But once you master these aspects of photography, it's what's going to separate your pictures from the rest. We will also take a look at some of the pictures you took after your first session for constructive commentary. After this class, you'll be able to practice depth of field and capture motion and time.

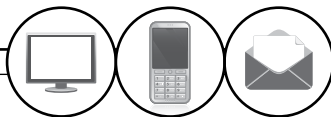

**Supplies:** A \$3 material fee will be collected in class. Please bring your camera and manual to class.

**Instructor:** Terry Matsuoka

**Fee: \$39**

Oceanside Campus, Room 7003

1 Wednesday 10/21, 6:30–8:30 p.m.

## Machinist Technology Training

Gone are the days of the grease-covered, conventional manufacturing machinist. Today's machinist must be highly trained with very specific education and skills, working in high-tech manufacturing plants that are both clean and innovative. CNC machines, just-in-time production methods, lean manufacturing techniques, along with great housekeeping and state-of-the-art facilities give a more accurate picture of American manufacturing today. The need for properly trained machinists to fill hundreds of positions in North San Diego County has reached critical mass.

To meet this need, we are proud to offer this program to individuals seeking a fast-paced, high-level training. Our program will prepare students for employment in machine shops and manufacturing facilities. Students who attend will experience an accelerated program that quickly prepares them to meet trade skill sets such as shop mathematics, metal properties, layout, precision measuring, machining procedures, tooling, and a basic understanding of both manual and CNC machining. Salaries for machinist technician apprentices range from \$13–\$16/hour to start; however, many companies are hiring at \$15–\$18/hour with proper training and certifications provided by programs such as ours.

## High Risk Medic

Whether you are working in the U.S. or abroad, well-rounded medical training can be the difference between life and death. Many do not have the time to attend lengthy EMT or paramedic courses. This intensive six-day course gives students the most important skills that military medics, EMT, paramedics and remote medical practitioners use to provide emergency care in a variety of environments. This course focuses on serious wounds caused by gunshots, blasts, vehicle accidents, medical emergencies, and other life-threatening injuries that may be encountered in a military, law enforcement or high-risk security environment. Advanced labs are available for students who already have TCCC Provider certification and CPR/AED for Professional Rescuers certification. No prior medical training is required.

## High Threat Protection

This course bridges the gap between conventional domestic protective operations and war-zone PSD work. This 19-day program will provide the training, knowledge, and skill sets to be a proficient protective team leader/member in all threat areas by focusing on one of the most challenging protective environments, the high-threat, low-profile area of operations.

Protecting a journalist in Beirut, a business executive in Mexico, or a humanitarian visiting a dangerous region in Africa, are all examples of high-threat, low-profile environments you may find yourself assigned to. As an American citizen working a private protective detail on foreign soil, you may be working alone or in a very small team, generally will not be allowed to carry firearms, and will have to arrange all of your own local resources. These limitations highlight the need for a high level of training in specific skill sets.

This unique program was designed by industry professionals who have drawn from their vast experiences in the field. Upon completion of this course, students will receive a Certificate of Accomplishment from MiraCosta College.

Topics covered include:

- Handgun shooting
- Live fire, immediate action drills
- Four full-protective details
- Combatives for protective specialists
- Driver & live fire vehicle down drills
- Foreign weapons live fire
- Unlawful detention
- Vehicle tactics, reverse clinic, unlawful check point procedures
- Site, route, threat and risk assessment
- Recruitment assistance

**Location:** Technology Career Institute, 2075 Las Palmas Drive, Carlsbad

## Beer & Wine Tasting Adventure in Mexico!

**Guide:** Christine Jensen

**Saturday, October 24**

Join us for a trip to the land of beautiful crafts, quaint villages, diverse landscapes and delicious beverages. We will be starting our day from the San Elijo Campus. Traveling by luxury bus, we will cross the border right into Tecate, Mexico. Once we arrive at the Tecate Beer Garden and Brewery, we will have a tour of the factory. Afterwards, we will visit the Beer Garden to taste a wide variety of beers, many of which you can't find in the US. After a couple of hours in Tecate, we will head further south to the Valle de Guadalupe. If time permits, we will stop at three different wineries. The first is L.A. Cetto. It is one of the larger wineries in the area, producing approximately one million cases of wine each year. There is a picnic area on the property, as well as a boutique store where you can purchase cheese, crackers, olive oil, and more. The second stop is to a mid-sized winery, Monte Xanic. Each wine is considered "unique, flavorful, memorable." If there's time, we will head to Adobe Guadalupe, known for its elegance and large hacienda style building. Many newspapers and magazines have claimed that the wineries are as good (if not better) than Napa. See for yourself!

**IMPORTANT:** You will need to bring your passport with you. Do not bring valuables. Bring lots of bottled water and coins to access the restrooms.

**Fee: \$115**

**Depart San Elijo Campus at 7:30 a.m.**

**Return 8:30 p.m.**

## Questions About Tipping?

Passengers often ask us if they should tip their driver and tour director. These customary gratuities are not included in the tour price, but highly encouraged (please do not tip guides Sharon Gaitan, Carrie Welsh, Kristin Maccarrone, Christine Jensen, or Linda Kurokawa).

Much like a restaurant, tipping is recognized as an appreciation for a job well done and motivation to exceed your expectations.

Industry guideline for tipping is \$3-\$5 per person, per day; however, any amount is appreciated and should be related to how you were served by each individual.

## L.A. Diamond/Jewelry District, Garment District and Farmer's Market Shopping Extravaganza

**Guides:** Paul & Linda Kurokawa

**Friday, September 25**

Wouldn't it be wonderful to be chauffeured around L.A., spending the day shopping at all the best places with the best bargains? Well, now is your chance to enjoy a full day of "shop till you drop" while our luxury bus takes you everywhere. We will start our day at the Jewelry District where you can find some of the best deals on gold and diamonds in the world. Even if you aren't in the market for that two-carat diamond, it's so much fun to look! We will spend 1-1/2 hours in this area, before we drive you to the Fashion District, just a few miles away. Shopping in the L.A. Fashion (or Garment) District is a unique experience where you can find the latest trends at 30-70% off the retail price. There are over 1,000 stores, from flowers to textiles, to apparel and accessories. You can also find amazing and inexpensive lunch foods at almost every corner to sustain you through the rest of the day. Because the Fashion District has so many areas, we will provide you with a detailed map so you can find your way to the exact shops you wish to visit. We will stay for 3 hours to provide time for a no-host lunch and shopping. Our last stop of the day will be at the L.A. Farmer's Market. This farmer's market is more like an international gourmet bazaar with lots of fun boutiques thrown in. We will bring ice coolers on the bus so that your purchases of produce, cheese, and/or other perishables can stay fresh on the way home. Then, put your feet up and let us do the driving all the way home! We recommend that you wear VERY comfortable walking shoes and bring a rolling cart that can lie flat. Bring cash for the best deals and your holiday shopping list. NOTE: quarters are needed for the bathrooms.

## The Beautiful Getty

**Guide:** Joe & Sharon Gaitan

**Saturday, October 3**

At this particular time, Getty Center holds the first major international exhibition to bring together approximately 50 ancient bronzes from the Mediterranean region and beyond, ranging from the 4th century B.C. to the 1st century A.D. This exhibition is called, "Power and Pathos: Bronze Sculpture of the Hellenistic World. This exhibition was held in Italy and you now have the opportunity to see it at the Getty Center. During the Hellenistic era, artists around the Mediterranean created innovative, realistic sculptures of physical power and emotional intensity. Bronze—with its reflective surface, tensile strength, and ability to hold the finest details—was employed for dynamic compositions, graphic expressions of age and character, and dazzling displays of the human form. The J. Paul Getty Museum's goal is to make its collection meaningful and attractive to a broad audience by presenting and interpreting the collection through educational programs, special exhibitions, publications, conservation, and research. The location and view from the one billion dollar center is as spectacular as the architecture and 54 galleries containing some of the world's major pieces of art. There will be a number of other fantastic exhibitions, including:

- Pre-20th-century European paintings, sculpture, & decorative arts.
- Contemporary and modern outdoor sculpture and architecture.

Gallery teachers, curators, and docents lead free guided tours of the galleries, architecture and gardens throughout the day. Please bring your ID card if you would like to rent a free audio guide at the Getty's Center. There will be a no-host lunch. You may bring your own lunch and enjoy a picnic on the lawn adjacent to the Central Garden or at any of the Getty Center's public seating areas as well. Wear comfortable shoes.

Their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at MiraCosta College, nor do they account for student outcomes occurring after this three-year tracking period.

Based upon the cohort defined above, 27.70 percent attained a certificate or degree or became "transfer prepared" during a three-year period, from fall 2009 to spring 2012. Students who are "transfer prepared" have completed 60 transferable units with a GPA of 2.0 or better.

Based on the cohort defined above, 16.65 percent transferred to another postsecondary institution (UC, CSU, or another California community college) prior to attaining a degree, certificate, or becoming "transfer-prepared" during a five-semester period, from spring 2010 to spring 2012.

**Selective Service—Important Notice for Male Students.** Federal law requires men 18 through 25 years of age to be registered with the Selective Service System (SSS). The law applies to male citizens and immigrant aliens but not to foreign students who hold valid student visas. Men must be registered before they can receive federal or state financial aid for school, including loans and grants. Registration forms are available at any U.S. Post Office or online at [www.sss.gov](http://www.sss.gov).

**Federal Tax Credit.** In accordance with federal tax credit legislation, MiraCosta College will post the 1098T form online in SURF at Payment & Account Information/view 1098T. If you do

not grant consent to use the form online, it will be mailed to your current address by the end of January. Information will also be reported to the IRS. If you did not provide your correct Social Security number to the Admissions and Records Office, complete a change of information form to ensure accurate reporting to the IRS. Please check with your tax preparer to determine if you are eligible to take advantage of this credit and the amount you may deduct.

**Alcohol, Drugs & Tobacco.** The district shall be free from all illegal drugs and from the unlawful possession, use or distribution of controlled substances and alcoholic beverages. Any employee, student, student worker or volunteer who violates this policy will be subject to disciplinary action (consistent with local, state, or federal law), which may include referral to an appropriate rehabilitation program, suspension, demotion, expulsion or dismissal.
