

The district grants the Bachelor of Science in Biomanufacturing to those students who have completed 120 degree-applicable semester units and meet the following grade-point requirements:

- A. No grade less than a “C” or “P” in all required lower-division coursework in the major.
- B. An overall 2.0 GPA:
  - 1. In all upper-division coursework.
  - 2. In all degree-applicable coursework completed at MiraCosta College.
  - 3. In all degree-applicable coursework completed at any college or university.

Students must also complete general education, residency, and competency requirements set forth in Title 5 regulations.

Courses from other U.S. regionally accredited colleges or universities will be evaluated for satisfying baccalaureate degree requirements based on course description, comparable or equivalent content, and appropriate prerequisites. Students may be required to provide a course outline and/or a syllabus to determine course comparability and a transcript to verify prerequisite completion.

International courses will be evaluated for satisfying baccalaureate degree requirements only when course descriptions are submitted in English, along with a transcript evaluated by an approved foreign transcript evaluation service. Course descriptions may also be required for prerequisite review.

The superintendent/president shall establish procedures to determine degree and requirements that include appropriate involvement of the Courses and Programs Committee. The procedures shall assure that graduation requirements are published in the district’s catalog and are included in other resources that are convenient for students.

See Administrative Procedure 4100B.
