## **SUPPORTERS OF MEASURE MM**

The MiraCosta College Measure MM on the November ballot has received endorsements from Biocom, San Diego Regional Economic Development Corporation, San Diego County Taxpayers Association, the Oceanside Chamber of Commerce and the Carlsbad Chamber of Commerce. The MiraCosta College Board of Trustees voted to place Measure MM, a \$455 million local college improvement bond measure, on the November ballot. If approved by local voters, the measure would upgrade career training facilities in science, nursing, healthcare and skilled trades; improve facilities for veterans' job training and counseling; update instructional technology; improve access for students with disabilities and replace roofs, electrical systems and plumbing. All funds are to stay in the community to support MiraCosta College.
