"The Music Technology program at MiraCosta is amazing. It really put me on the right track to being successful in the music industry. After completing the Recording Arts program, I worked multiple paid engineering jobs across the country. I also started a record label, produce my own music, and manage a music store. This program will definitely prepare you to achieve your dreams!"

—Heidi Klaerich, MiraCosta College Recording Arts graduate

This brochure was funded by the Carl D. Perkins Career and Technical Education Improvement Act of 2006 (17-C01-032) awarded to MiraCosta College and administered by the California Community College Chancellor's Office. The district, and each individual who represents the district, shall provide access to its services, classes, and programs without regard to age, ancestry, color, physical or mental disability, pregnancy, gender, gender identity, gender expression, marital status, medical condition, genetic information, national origin, parental status, race or ethnicity, religion, sexual orientation, military or veteran status, or because he or she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

MUSIC TECHNOLOGY PROGRAM

MiraCosta College's Music Technology Program offers certificates and associate degrees and prepares students for exciting and rewarding careers in the music industry.

MiraCosta College graduates have obtained jobs in the commercial music industry, including working on audio recording, computerized music systems, sound reinforcement and production, and more.

MiraCosta College's Music Department offers music technology classes in:

- Audio Equipment Maintenance
- The Business of Music
- Electronic Music and Sound Design
- Concert Sound Reinforcement
- Digital Audio Production
- Musical Instrument Digital Interface (MIDI)
- Recording Arts
- And more!

MUSIC TECHNOLOGY CERTIFICATES & ASSOCIATE DEGREES

MiraCosta College offers a wide range of classes that meet days, evenings and online. Students may choose to earn one or more of the following certificates or work toward an associate degree. For more information about each certificate and associate

degree, please contact the Counseling Department at 760.795.6670 or consult the MiraCosta College catalog at catalog.miracosta.edu/disciplines/musictechnology.

Certificate of Proficiency

Certificates of Proficiency are designed to be the first step in a career ladder. They are short-term certificates, typically requiring fewer than 18 units of course work, which introduce students to one aspect of a trade or occupation.

Music Technology

15-16 units

Certificates of Achievement

Certificates of Achievement are designed to prepare graduates for immediate employment in specific career areas. The total units required for a certificate varies with each discipline.

Music Technology

29-31 units

Business of Music

19 units

Associate Degree

MiraCosta College's Music Technology Program offers the following associate degree:

Music Technology

Students planning to earn an associate degree should meet with a MiraCosta College counselor before or early in their first semester to identify courses that meet degree requirements. The associate degree listed above requires completion of a Certificate of Achievement in addition to general education courses specified in the MiraCosta College catalog. General education courses required for an associate degree vary depending on the desired discipline.

"With the skills I have learned through MiraCosta's Music Technology Program, I plan to obtain my degree then return to Japan to work in a recording studio and run sound for live shows."

—Sarah Suzuki, MiraCosta College Music Technology student

THE MUSIC TECHNOLOGY PROGRAM HAS IT ALL!

MiraCosta College's Music Technology Program has the latest in state-of-the-art music technology equipment. It is housed in two, new beautiful ocean-view buildings, including a world-class concert hall. Some of the equipment includes:

- Soundcraft, Digidesign, Yamaha, Behringer, Toft and Mackie mixing consoles
- Protocols HD
- Tascam X-48 digital multitrack recorders
- Millennia, Neve, Avalon, Daking, SSL, Joe Meek microphone preamplifiers and more
- Genelec, JBL, QSC, and Yamaha NS-10m monitoring
- Meyer Main speakers in concert hall with AVID Venue and Yamaha consoles
- Lexicon, Yamaha, UREI, DBX, Drawmer signal processing
- Aviom, Furman and ART headphone monitoring systems
- The latest Kurzweil, KORG, Technics and Alesis controller keyboards
- Full lab of latest Moog Modular, Roland, Dave Smith, Waldorf, Kurzweil, Linn Synthesizers
- iMac and Mac Pro computer labs and control rooms

Additional software training equipment includes:

- Protocols HD and Digital Performer
- Reason, Ableton Live, Garage Band, Air Music, Software Synthesis, McDsp, Sonnox, Waves, SoundToys, Izotope, Plugins and more.
- Sibelius, Finale notation software
