Time: 6 Saturdays, 3/17–4/28, 9 AM–12 PM
No class on 3/24.

INSTRUCTOR BIO:
Stan Stevenson is a modern-day Renaissance artist. His work is recognizable and beautiful, something you can enjoy without having to have a reason. Today, there is a re-emergence of the craftsmanship and technical excellence of the “old school”—the same excellence and quality that is synonymous with the “Old Masters.” He has followed this approach to painting since he began his career over 40 years ago. His paintings hang in some of the finest galleries.
Stevenson has attracted the attention of celebrities, statesmen, and corporate presidents, who have, over time, become devoted collectors. Now is your opportunity to explore the two art courses that Stan is teaching this semester!
NEW  Draw Your Way Through Art History—Making Art History Come Alive

All experience levels welcome. Take a fun tour of art history and learn to interpret various styles in your own way. Develop drawing skills while being inspired by ancient artistry, as well as modern masters. Create your own works of art as we explore a selection of works such as centuries-old frescoes, Impressionist art and popular artists from Klimt to Warhol.

Fee: $110. Early Bird Special $99 (Register BEFORE 2/24)
Supplies: A materials list will be sent prior to the start of class.
Instructor: Alice Picado
Location: San Elijo Campus, Room 206
Time: 6 Mondays, 3/5–4/9, 6–9 PM

Watercolor–An Elemental Approach

All experience levels welcome, especially the enthusiastic beginner! Do you find inspiration in representational subjects (trees, rocks, water, sky, people, animals, buildings, flowers, shadows and colors) but confused about how to paint them? Learn a logical, elemental approach to artfully depict representational subjects in watercolor while developing control of shape, color, value and texture in a watercolor medium.

Fee: $154
Supplies: A $3 material fee will be collected in class. A materials list will be sent prior to the start of class.
Instructor: Drew Bandish
Location: San Elijo Campus, Room 206
Time: 8 Saturdays, 3/17–5/19, 9 AM–12:30 PM
No class on 4/21.

Watercolor Portrait Painting

All experience levels welcome. Learn how to capture the most essential qualities of a portrait. Gain technical mastery and intuitive understanding of the human face. This class will teach students watercolor techniques, line, form, contour, composition and proportions of the head, as well as the proper use of materials. Students will learn how to paint each feature on the face through demonstrations and exercises designed to advance your painting skills.

Fee: $120. Early Bird Special $105 (Register BEFORE 1/27)

This course is for musicians interested in performing with MOJO (MiraCosta Oceanside Jazz Orchestra). This multiple Downbeat award winning ensemble concentrates on the preparation and performance of large jazz ensemble/big band jazz. Students study music from a wide variety of historical eras, ranging from the 1920s swing style to contemporary styles. Students are required to participate in both on and off campus performances. For more information, contact Steve Torok at playjazz@miracosta.edu

Audition Required: Tuesday, 1/22, 6 PM. Please contact Steve Torok at playjazz@miracosta.edu prior to the audition.

Fee: $69
Instructor: Steve Torok
Location: Oceanside Campus, Room 2218
Time: Tuesdays, 1/30–5/15, 6–9 PM

NEW Night Photography: Learn to Capture Amazing Images in the Dark

Want to capture night sky splendor with your digital SLR camera? The vibrancy of color can be found in capturing the stars, a city skyline at twilight, or even urban settings at night. Join photographer, Lamia Khorshid, and learn the technique and art of photographing after dark. Fundamentals of night photography are covered in the computer lab on night one. On night two, we shoot outside of class (weather permitting). Then on night three and four, we will meet at a selected location to put what we have learned into action.

Fee: $120. Early Bird Special $99 (Register BEFORE 3/31 for this rate)
Instructor: Lamia Khorshid
Location: San Elijo Campus, Room 306
Time: 4 Mondays, 4/9–4/30, 7:30 PM–9:30 PM
Getting Started with Your dSLR

In this workshop, you will learn how to set up your camera to optimize the quality of your photographs. We will cover the all important topics of white balance and ISO to be able to shoot under difficult conditions. Additionally, we will learn about the little icons on your shooting dial. After you have completed this class, you’ll be able to take pictures right away!

**Fee:** $45

**Supplies:** A $3 material fee will be collected in class. Please bring your camera and manual to class.

**Instructor:** Terry Matsuoka

Offered at 2 locations for your convenience

**Location:** Oceanside Campus, Room 3511
**Time:** 1 Tuesday, 3/6, 6:30–8:30 PM

**Location:** San Elijo Campus, Room 307
**Time:** 1 Tuesday, 4/10, 6:30–8:30 PM

From Good to Great Photos: Understanding Aperture and Shutter Speed

Even if you didn’t realize it, this is probably why you bought your dSLR in the first place! Aperture and shutter speed can be daunting concepts to understand on your own. Once you master these aspects of photography, it’s what is going to separate your pictures from the rest. We will also take a look at some of the pictures you took after your first session for constructive evaluation. After this class, you’ll be able to practice depth-of-field and capture motion and time.

**Fee:** $45

**Supplies:** A $3 material fee will be collected in class. Please bring your camera and manual to class.

Making Shooting Perfect Pictures Easy

The primary strategy for achieving great pictures is proper lighting, no matter what kind of camera you have. To make getting that perfect shot easy, we will cover lens focal length, exposure compensation, bracketing, auto-focus points and flash. You will be surprised at how advanced you become after this class.

MiraCosta College's Technology Career Institute is an equal opportunity employer (EOE). Auxiliary aids and services are available upon request to individuals with disabilities. This project received $2,749,419.44 (45% of its total cost) from a grant awarded under the TAACCCT grant as implemented by the U.S. Department of Labor's Employment and Training Administration.
HOW TO APPLY FOR WORK SKILLS CLASSES

The majority of our Work Skills classes (identified by a ◊) require that students complete an online application in our Work Skills database “Apricot.” In order to start the enrollment process, please go to bit.ly/tci_interest to fill out a Student Interest Form. Then, follow the steps below to complete an Application and a Medical Forms.

1. Sign on using your email and password at ctk.apricot.info
2. Click on Student Interest Form at the upper left
3. Click on your name (if it does not appear, click on “Browse All” to refresh the page
4. Go to the right of Application and click on “Create New”
5. Choose (PROGRAM)
6. Don’t forget to SAVE IT!
7. Go to “View Folder” and do the same for the Medical Form

Lastly, submit two forms of ID in person or via email to tci@miracosta.edu.

Note: For our longer Work Skills programs and/or outside funding sources, there may be additional forms and documents that are required.

Our programs under 50 hours will typically accept students ages 15 years or older. Please contact our office at 760.757.2121, x6346 prior to applying.

CERTIFICATE INFORMATION

For any program over 50 hours, students will have the opportunity to earn a certificate of accomplishment. If you are enrolled and successfully complete a program under 50 hours, we can issue a certificate for $15.

REFUND POLICY

Refunds will be made up to five working days prior to your class start date. A $25 cancellation fee will be retained for each refund. There are no refunds given once the class has begun, unless special permission has been granted by the program coordinator.

Tuition free courses received $3,600,000 (60% of total) awarded under the America’s Promise Grant program as implemented by the U.S. Department of Labor.

 Location: Technology Career Institute
 Time: 10 Wednesdays, 1/31–4/4, 5–8 PM

◊ OSHA-30
The 30-hour general industry outreach training course is a comprehensive safety training program designed for anyone involved in general industry. The course provides extensive information on OSHA compliance, safety and health hazards in the workplace, employer responsibilities, workers’ rights, hazard recognition, avoidance, abatement and prevention. Successful completion of this course results in a Department of Labor 30-hour OSHA General Industry safety card that is federally recognized in all 50 states and never expires.
 Fee: $250
 Location: Technology Career Institute
 Time: 5 Mondays & Wednesdays, 2/26–3/28
 6:30–9:30 PM

◊ Lean Manufacturing I
Lean manufacturing is the systematic method for eliminating waste within a manufacturing system. This initial course will consist of 5S, 8 wastes, deep observation, value stream mapping, A3 one-page corrective action reports and Kaizen events. This course provides practical application of LEAN concepts that anyone can use to identify and minimize waste in their own area of control.
 Fee: $150
 Location: Technology Career Institute
 Time Options:
 Saturday & Sunday, 2/24–2/25, 9 AM–4 PM
 Saturday & Sunday, 3/24–3/25, 9 AM–4 PM

◊ Lean Manufacturing II
This second-level course will consist of a refresher of LEAN I and practical applications of standard work, takt time and balancing work. In addition, there will be an overview of error proofing, job instruction, improving job methods, and building a LEAN team. This course is appropriate for supervisors, team leaders and managers who are interested in implementing change within their work environment.
 Fee: $150
 Location: Technology Career Institute
 Time: Saturday & Sunday, 4/21–4/22, 9 AM–4 PM

$25 off for taking both Lean Manufacturing courses

◊ Quality Assurance Basics for Manufacturing
Manufacturing companies are thriving in San Diego county. That means thousands of products must be inspected to ensure that quality meets or exceeds customer expectations. Whether it’s a screw that goes into your body or a solar array on a satellite, it’s critical that the part is made or assembled correctly. This 15-hour workshop provides students with an overview of quality assurance concepts within the manufacturing industry. Course topics include:
 • Day-to-day job functions
 • Inspection and testing topics
 • Material certificates, MIL standards and verification
 • AS9100 overview
 • Auditing overview
 • Manufacturing processes
 • Documentation
 Fee: $100 Admin Fee: $30*
 Location: Technology Career Institute
 Time: 3 Mondays & Wednesdays, 5/7–5/23
 5:30–8 PM

*Tuition is FREE through the DOL funded America’s Promise Grant.
Note: The listed administrative fees will be collected upon registration.
◊ **CNC Operator Certificate**

Classes can be taken individually or as a certificate program.  
**Take all classes for $4,595 $570**

This certificate program is GI Bill® funding approved.  
Student must complete a capstone project.

◊ **AutoCAD for Manufacturing**

**Using Autodesk Inventor**

In this 15-hour introductory course, students will be introduced to Autodesk Inventor, a 3D mechanical design software. This program allows students to move from 2D to 3D images. In this course, students will also learn how to transform their CAD drawing to a usable CAM image.

Fee: $100  
Admin Fee: $50*

Location: Technology Career Institute  
Time: 5 Tuesdays, 2/27–3/27, 6–9 PM

◊ **Blueprint Reading with GD&T**

Fee: $200  
Admin Fee: $75*

Location: Technology Career Institute  
Time: 10 Wednesdays, 1/31–4/4, 5–8 PM

◊ **Computer Numerical Control (CNC) Operation**

In this class, the first day will include safety, an introduction to terminology, and basic blueprint reading. The rest of the course consists of demonstrations and hands-on instruction. Learn how to interpret G&M codes and operate both a HAAS CNC mill and lathe. Students will also get exposure to CAD/CAM software.

Fee: $2,100  
Admin Fee: $175*

Location: Technology Career Institute  
Time: 14 Saturdays, 2/3–5/12, 8–4:30 PM

**FACT**

Our core advanced manufacturing and engineering programs have a 92% employment rate.  

Our students have been hired by Accutek, C&H Machine, Callaway Golf, Fluid Components, Hunter Industries, IOS Technologies, Means Engineering, SouthWest Greene, TE Connectivity and ViaSat to name a few.

◊ **Operación Española de Control Numérico**

Este curso está diseñado para aquellos cuyo inglés es un segundo idioma y se beneficiarían de la instrucción en español. En esta clase, el primer día incluirá seguridad, una introducción a la terminología y lectura básica del modelo. El resto del curso consiste en demostraciones y la instrucción práctica. Aprender cómo interpretar los códigos G&M y operar ambos un molino y torno HAAS CNC. Los estudiantes también obtener exposición al software CAD/CAM.

Fee: $2,100  
Admin Fee: $175*

Location: Technology Career Institute  
Time: 14 Tuesdays & Thursdays, 1/16–4/19, 5–9 PM

◊ **OSHA-10**

Standard OSHA-10 safety course.  

Fee: $95  

Location: Technology Career Institute  
Time Options: 

- Thursday, 1/11, 1–4 PM & Friday, 1/12 8:30 AM–4:30 PM
- Thursday, 1/18, 1–4 PM & Friday, 1/19, 8 AM–4 PM

◊ **CNC Programming—Introduction**

Using MasterCam Mill

In this 30-hour introductory course, students learn how to design basic CNC programs for a three-axis CNC milling machine. Students will be instructed on G&M codes, Boolean logic and machine and control definitions. In addition, the class will cover basic aspects of post configuration, variable definitions, formatting, post lines, post text, modality and control definitions.

Fee: $200 Admin Fee: $75®

Location: Technology Career Institute

Time: 4 Mondays & Wednesdays, 3/5–3/28, 6–9 PM

◊ **CNC Programming—Intermediate**

Using MasterCam Mill

MasterCam is the most widely used CAM software in the industry and this intermediate, 30-hour course will provide students with trade-specific tips and tricks, whether they are within the production or the programming department. This course will teach additional topics for more intricate programs and designs. HAAS simulators will be used to test run the programs.

◊Electronics Certificate

Classes can be taken individually or as a certificate program.  
Take all classes for $2,945 $1,295  
This certificate program is WIOA funding approved.  
Student must complete a capstone project.

◊Basic Electronics
An introductory, 54-hour course that teaches students the basics of electronic technology. Students experiment with direct current, series-parallel circuits and transistors/semiconductors. Additional topics include: study of Ohm’s law, Watt’s law, use of electronic components, basic soldering, oscilloscopes, digital volt meters, bread-boarding electronic circuits, basic computer troubleshooting and basic AC circuitry.  
Reduced Fee: $450  
Location: Technology Career Institute  
Time: 10 Mondays & Wednesdays, 2/5–4/16  
6–8:30 PM. No class on 2/19.

◊Introduction to Electromechanics
Electromechanical technicians combine knowledge of mechanical technology with knowledge of electrical and electronic circuits. They install, troubleshoot, repair, and upgrade electronic and computer-controlled mechanical systems. In this 60-hour course, students will learn about mechanical systems: solder small electrical boards, build, program and operate a 3D printer, troubleshoot a copier and more.  
Reduced Fee: $500  
Location: Technology Career Institute  
Time: 10 Tuesdays & Thursdays, 2/27–5/3  
6–9 PM  
No class on 2/18 & 4/1.

◊Electronic Assembly
This course provides the necessary training to become an electronic assembler at an advanced manufacturing company. Students will learn:

- Soldering through-hole and surface mount single-lead/multi-lead components  
- Soldering multi-pin IC chips  
- Measuring and cutting wire  
- Trimming insulation, crimping, connectorizing, molding and insulating connector ends  
- Wrapping, bundling, shielding, insulating and security cable harnesses  
- Mounting modules, components, connectors, cables, and harnesses into chassis

Students will work toward IPC certification. In addition, students will learn the role of production in the manufacturing system and how certain skill sets such as reading and analyzing acceptance criteria, testing, documentation and soldering are integral to the job.  
Fee: $1,800 Admin Fee: $220

Engineering Technician Certificate

Whether you want to work in electronics, aerospace, biotechnology or breweries, this program can provide you with the necessary training!

Engineering technology integrates theory and application in mechanical, electrical and electronic systems, fluid power, automation, robotics, and computer software. Our 600-hour program is 75% hands-on, gets students in front of industry, and trains students in the areas that companies have requested. Students will receive:

- OSHA certification
- National Career Readiness certification
- 2 days of job shadow experience
- Industry tours and guest speakers
- Career Readiness Bootcamp
- Work Skills Navigator support throughout the program and after graduation

Students will experience an accelerated program designed to prepare them with the skill sets to qualify for immediate entry into positions with local industry. Or, if a student has a college degree in this subject area, or is interested in pursuing one in the future, this is the perfect supplement to enhance their current or future education.

Fee: $6,750. GI Bill® and WIOA funding approved. Tuition is FREE through the DOL funded America’s Promise Grant (Note: A $335* charge to cover administrative fees will be collected upon registration).

Machinist Technology Certificate

Want to work in the aerospace industry, make medical parts that go into your body or design a new golf club?

Gone are the days of the grease-covered, conventional machinist. Today’s machinist must be highly trained with specific skills, working in high-tech manufacturing plants that are clean and innovative. Our nation has a huge shortage of skilled workers. As 77% of skilled baby boomers leave the workforce, San Diego County will need to fill thousands of positions over the next 15 years.

To meet this need, we offer a fast-paced, high-level training program. Students will be able to complete this program in 13-weeks (487 hours), with training in shop math, metal properties, reading blueprints, precision measuring, tooling, G&M codes, and manual and CNC machining. In addition, students will receive:

- OSHA certification
- National Career Readiness certification
- Opportunities to attend local industry meetings
- 2 days of job shadow experience
- Industry tours and guest speakers
- Career Readiness Bootcamp
- Work Skills Navigator support throughout the program and after graduation

Fee: $6,000. GI Bill® and WIOA funding approved. Tuition is FREE through the DOL funded America’s Promise Grant (Note: A $310* charge to cover administrative fees will be collected upon registration).

NEW ◊ Introduction to the Internet of Things (IoT)

IoT refers to the connection of devices to the Internet. Cars, kitchen appliances, and heart monitors are all examples of current consumer products connected through the IoT. According to Business Insider, there will be more than 24 billion IoT devices by 2020. That’s approximately four devices for every person on the planet. About 56 billion is anticipated to flow into IoT solutions. In this 15-hour introductory course, students will be exposed to four elements of industrial Internet of Things:

- Physical monitoring hardware
- Device programming
- Internet communication via ISP
- Creating data displays

Fee: $100 Admin Fee: $30*
Location: Technology Career Institute
Time: 5 Thursdays, 4/5–5/3, 6–9 PM

◊ Introduction to Python-xy

Python is a powerful programming language used in many areas of industry such as:

- Computer vision
- Machine learning
- Robotics
- Web development
- Gaming

This course focuses on the basics of Python-xy programming with examples in computer networking and web applications. These basics will be the starting point for other future classes, including embedded computing courses using Raspberry Pi and robotic programming using RoboSDK.

Fee: $150
Location: Technology Career Institute
Time: 4 Saturdays, 3/17–4/7, 12–5 PM

◊ PLC Programming I

Programmable Logic Controller (PLC) systems have evolved to become the central component to most automation systems today. Learn the basic skills to program, troubleshoot and configure PLC-based automation installations. Allen Bradley and Siemens are two commonly used systems within the manufacturing and engineering industries. Take one or both courses to gain a foundation in PLCs.

Note: A basic understanding of electrical circuitry is strongly recommended.

Fee: $150 each
Location: Technology Career Institute
Class Options: Siemens Software
Time: 4 Saturdays, 1/20–2/10, 12–5 PM
Allen Bradley Software
Time: 4 Saturdays, 3/17–4/7, 12–5 PM

◊ MATLAB I

MATLAB is a scientific computing language and program platform widely used throughout industry. It is designed to simplify rapid development and prototyping of highly intensive applications. MATLAB is used in robotics, PLC design, electrical engineering, economics, financing, neural networks, video processing, image processing, data acquisition and more. You will learn to build your own functions based on processing audio signals and images. Finally, you will learn to use the various toolboxes available in the student version of the software.

Fee: $175

NEW Real Estate License Program | Fall 2018
Now an accelerated 4-month program, includes licensing exam preparation!

The Real Estate License Program provides the perfect training for those students planning to enter the real estate profession, as well as opportunities for those currently working in real estate and related areas to increase knowledge in this field. MiraCosta’s Real Estate Program has moved to Community Education and Workforce Development and will no longer offer college credit. However, the duration of the course has been shortened to 4 months and 160-hours and includes testing preparation and the opportunity to take the real estate exam at the end of class.

Course Includes: Real Estate Principles, Real Estate Practice, Legal Aspects of Real Estate, Mastering Real Estate Math and Exam Preparation.

Licensing to become a real estate salesperson is conducted by the California Department of Consumer Affairs Bureau of Real Estate (BRE). To obtain a California Real Estate Salesperson license, candidates must first qualify for and pass a written examination. For information about state licensing, go to: bre.ca.gov.

Required Textbooks:
- California Real Estate Principles, 14th Edition (Approx. $80)
- Mastering Real Estate Mathematics, 7th Edition (Approx. $9)

NEW Scuba Diving Instructor Program
Gi Bill® funding approved

MiraCosta College Community Education and Workforce Development now offers a rigorous Gi Bill® funded Professional Scuba Diving Instructor Program. We have created a 489-hour course that prepares students for Professional Association of Diving Instructor (PADI) membership and certification.

The program includes the following courses:

- Open water
- Advanced open water
- Emergency first response
- Rescue diver
- Dive master
- Assistant instructor
- Emergency first response instructor
- Cylinder inspector and technician
- HAS instructor
- Open water SCUBA instructor and MSDT prep

This program is self-paced. To receive certificates, students must complete all classes and dives.

Start Dates: Ongoing
Fee: $14,515 (includes all coursework, boat dives, materials and scuba gear)

Additional fees for PADI application, membership and certification will be required. These fees are the responsibility of the student and are to be paid directly to PADI or the certifying agency.

High Risk Medic 6-Day Training
Whether you are working in the U.S. or abroad, well-rounded medical training can be the difference between life and death. Many people do not have time to attend lengthy EMT or paramedic courses, not to mention the opportunity to become a military medic. This course was designed with this in mind and covers the most important life-saving aspects of all these emergency medical professions.

High Threat Protection 19-Day Training
The HTP course bridges the gap between conventional domestic protective operations and war-zone PSD work. This course provides the training, knowledge and skill sets to be a proficient protective team leader/member in all threat areas by focusing on one of the most challenging protective environments, the high threat low profile area of operations.

Over the next year, we will be rolling out the following new programs:

- Advanced High Risk Protection
- Air Travel Threat Mitigation Training
- Crisis Management Negotiator
- Designated Defensive Marksman
- International Security Advisor
- Lone Protector Training
- Protective Security Driving
- Remote Security Operations
- Surveillance Detection/Counter Surveillance Program

For class times, dates and more information, go to htpscourse.com.
Our programs are approved for GI Bill®, WIOA and other funding options. Give us a call at 760.795.6822 for more information.
Veterinary Assistant

Become a veterinary assistant in just a few months! This 60-hour program will provide an overview and entry-level training for the veterinary assistant profession. Learn basic animal care principles and techniques, safety procedures and state/federal guidelines.

Topics include:

NEW Beginning Grant Writing for Nonprofit

Leaders INSTRUCTOR BIO:
With an MBA from UC Irvine, Ali Mohareri is a current professor at MiraCosta College where he has taught various business courses. He consults and trains companies and executives in leadership and customer service. He also spent over 20 years in the private sector working for Fortune 500 organizations such as Johnson & Johnson, Bausch & Lomb and Quest Diagnostics.
Become a Notary Public the Smart Way—In One Day!

New Laws This Year
Making more money is always a great idea and shows your amazing initiative! Establish yourself as a notary public, earn additional income and provide a service to your community. Notary skills are valuable in almost any industry: real estate, legal, medical, and banking to name just a few. This six-hour state-approved seminar gives you the knowledge to pass the notary exam and practice as an effective notary. The class will focus on new legislation, passing the test (must be taken every four years), how to identify document signers, keep a journal, complete certificates properly and how to avoid lawsuits. After becoming a notary, train to become a loan signing agent and make $200 to $400 per signing. You will be a part of a rewarding and lasting career. Must be at least 18 years old and have a clean criminal record.

Note: You are automatically registered for the official state exam which will directly follow the seminar. See box to the right regarding the notary test. Due to state regulations, no one will be admitted to the classroom after 8:30 AM. In addition, you must be on time when returning to the classroom from all breaks. Refunds will not be issued.

Fee: $99
Supplies: A $35 material fee will be collected in class.
Instructor: Notary Public Seminars, Inc.
Location: Oceanside Campus, Room 3507
Time: 1 Saturday, 3/3, 8 AM–6 PM

Renewing Notaries
Need to renew your notary commission? We’ll feature the new state laws passed this year and give you a brush-up on general law to make sure you haven’t fallen into any bad habits. Your commission must be current to be eligible for the three-hour seminar. Renewing notaries must take the exam and submit Live Scan fingerprints again. A six-hour approved course must be taken first.

Note: You are automatically registered for the official state exam directly following the seminar. See call-out to the right regarding the notary test.

Fee: $50
Supplies: A $35 material fee will be collected in class.
Location: Oceanside Campus, Room 3507
Time: 1 Saturday, 3/3, 12:45–6 PM

Notary Testing
For those students who need just the notary exam—either preregister with MiraCosta College Community Education or pay at the door. A six-hour approved course must be completed before you are eligible to take the notary exam (see call-out below regarding the notary test).

Fee: $25
Location: Oceanside Campus, Room 3507
Time: 1 Saturday, 3/3, 3:45–6 PM

For regular notaries, renewing notaries, and those taking just the test, Cooperative Personnel Service will register you for the exam from 3:45–4:45 PM. The exam will be from 4:45–5:45 PM. If you are taking the exam, you will need to bring the following with you:

$40 check made payable to “Secretary of State,” current CA driver’s license with photo or state-issued ID card, a 2”x2” color photo of yourself, and two #2 pencils. If you took your notary class online, you MUST have your certificate of completion with you. Live Scan fingerprints are required after you pass the exam. Griffith Observatory with a Trip to San Antonio Winery
Saturday, February 3, 2018

The Griffith Observatory is one of L.A.’s greatest cultural attractions. It offers breathtaking views of the Pacific Ocean and Downtown L.A. from atop Mt. Hollywood in Griffith Park. The observatory, and accompanying exhibits, was opened to the public on May 14, 1935. Today, the Observatory is recognized as one of the most popular informal education facilities in the U.S. and a beloved gathering place for visitors. The Observatory offers many exhibits on the main level and roof; each focusing on a unique aspect of observation. In the planetarium there is an optional show that you may purchase tickets to see (subject to availability and time constraints). The planetarium show costs $7 for adults and $5 for seniors age 60 and older. If you are so inclined, you might like to enjoy a short hike on some of the trails surrounding the Observatory which offer gorgeous views of the city. There is even a gift shop on the premises for souvenir purchases and a reasonably priced restaurant.

Following our visit to the Observatory, we will stop at the beautiful San Antonio Winery for a free tour and optional no-host wine tasting and/or lunch.

Fee: Book Early for $65. For booking made after 1/25, fee will increase to $79.

The Living Desert Zoo and Gardens—A Unique Way to Enhance Your Zoo Adventure
Saturday, March 10

Experience one of the most unique zoos in the U.S. This is a very scenic and informative place where you do not feel like you are in a zoo. The Living Desert was established in 1970 by several trustees of the Palm Springs Desert Museum who foresaw the impact that resort development would have on their local desert ecosystem. This vision led to the establishment of an interpretive nature trail and preserve in Palm Springs. The gardens showcase the diversity of forms adopted by plants found growing in the harsh conditions typical of the world’s deserts. Over 1,400 different species of plants are represented in the many gardens that constitute The Living Desert’s plant collection.

Embark on a two hour safari tram tour of the grounds led by a nature guide. You’ll see remarkable plants, animals and natural phenomena associated with deserts and discover how The Living Desert is helping to interpret and protect them. Stops will be made at the major animal exhibits. In addition, you have an exclusive showing of the District Commissioner’s House which has a panoramic view of the Amour Leopard. There is a stop at the Wildlife Hospital where you will be able to see the state-of-the-art equipment the veterinarians use to keep the zoo’s animals healthy. After the tour, enjoy a no-host lunch in one of the cafes and giraffe feeding ($6 added fee). The Living Desert offers an experience like no other.

Fee: Book Early for $88. For booking made after 2/16, fee will increase to $98.
Guide: Staff
Activity Level: Easy (Moderate if you plan to do a lot of walking around the zoo)
Note:
• Includes transportation, entrance fee and safari tram tour.
• Wear very comfortable walking shoes. Dress casually and in layers of clothing for cool and/or warm weather.
• Cameras, bottled water, snacks or boxed lunch are great to bring along.
• Sunscreen and/or hat is recommended.

Old Town Pasadena and The Huntington Library and Gardens

Saturday, April 21, 2018

Old world charm meets modern conveniences at Old Town Pasadena. Prior to our stop at The Huntington, there will be a no-host breakfast/brunch in Old Town Pasadena. There will be time to explore the shops and history of Old Town or just enjoy a leisurely dining experience and then off to The Huntington Library, Art Collection and Botanical Gardens where we will enjoy remarkable art and the magnificence of nature. The Huntington grounds encompass 207 acres in the San Gabriel Valley, amid a diverse botanical collection of rare plants, shrubs, and mature trees in an ever changing riot of color. The Library contains rare books and manuscripts. Included in the collection is the Ellesmere manuscript of Chaucer’s, The Canterbury Tales (c.1410) and a Gutenberg Bible (c.1455). The Huntington Art Collections focus on European art from the 15th to the early 20th century and American art from the late 17th to the mid-20th century. Included in the vast art collection is Blue Boy by Thomas Gainsborough and Pinkie by Thomas Lawrence. Aside from the beauty inside, more than a dozen specialized gardens are yours to explore. Among the most remarkable are the Desert, the Japanese and the Rose Gardens. If you feel like lunch or a snack, there are a number of restaurants located on the grounds including the Rose Garden Tea Room (reservations recommended) and don’t forget to stop by the gift shop to pick up souvenirs.

Fee: Book Early for $85. For booking made after 3/31, fee will increase to $95.
