

The board of trustees will be informed about grants received by the district.

Government grants must be approved by the board of trustees. At the discretion of the superintendent/president, the approval may be on a ratification basis for government grants.

A government grant is the transfer of tax-payer money or property from a sponsor to an institution that may require performance of specific duties such as research, budget reports, progress reports, and return of unused funds.

Grants made to the district's foundation do not require the board's approval, unless a grant creates a financial obligation to the district. The executive director of the foundation shall inform the board of grants received by the foundation at least annually.

The superintendent/president shall establish procedures to assure timely application and processing of grant applications and funds, and that the grants that are applied for will directly support the mission of the district and educational master plan.
