International Education

Courses developed or adapted specifically for international education must be approved by the Courses and Programs Committee and must be as rigorous as any offered on campus. In particular, the curriculum should foster and enhance international perspectives, increase fluency in foreign languages (when relevant), and promote understanding of the host culture. These courses must be approved in accordance with Education Code and Title 5 regulations and be taught by faculty members meeting the minimum qualifications for providing instruction.

Department colleagues may work together to investigate international education opportunities they may wish to pursue. Faculty members should discuss their plans with their department chair and secure support from their dean prior to presenting their proposal to the vice president of instructional services for consideration.

Students participating in international education experiences must be enrolled at MiraCosta College or at a consortium-member or partner institution. Students enrolling in study abroad experiences must be over the age of 18 (unless they are emancipated minors). The college considers all international activities to be part of a learning experience, and each participant to be an ambassador of MiraCosta College. Therefore, students, staff, and faculty participating in international education, including study abroad, educational excursions, or field study, must obey all civil and criminal laws of

any country visited and must comply with the district's board policies and administrative procedures.

International Education Guidelines

The Institute for International Perspectives (IIP) provides support for faculty and students interested in study abroad programs. The IIP also maintains a list of procedures and guidelines that outlines how to design, promote, and operate a study abroad program approved by the district. Faculty members are encouraged to talk to the IIP coordinator about any questions concerning study abroad opportunities and requirements.
